

## GAY HEARING IS BEHIND CLOSED DOORS IN UTICA

FORMER PASTOR IS ON HAND TO  
FIGHT THE CHARGES MADE  
AGAINST HIM.

### NEWARK MEN ARE PRESENT

Defendant Represented at Hearing  
Before Committee by the Rev.  
Otis Harter.

Utica, O., Dec. 4.—After several delays which were unavoidable on the part of the trial commission, Rev. T. Boyd Gay, ex-pastor of the Presbyterian church here, faced for the last time in Utica, a court sent to inquire into his alleged indiscreet actions while pastor of the First Presbyterian church.

The case was scheduled to start this morning at 9 o'clock, but owing to the late arrival of Rev. Otis Harter, pastor of the Fredericktown church, the board merely organized and then took a recess until 12:30 o'clock this afternoon. Rev. Mr. Harter, who late arrival delayed the matter, will be Mr. Gay's counsel. He will represent Mr. Gay in the trial, which will be conducted very much as a criminal case would be conducted in law.

The trial commission which represents the Zanesville Presbytery is "lined up" as follows: Rev. James S. Revennagh of Mt. Vernon, chairman; Rev. M. F. Nesbitt, of Pataskala, secretary; Rev. L. S. Boyce, Newark; Rev. E. J. Wright, Roseville; Elders J. R. Johnson, of Coshocton; W. P. Bogardus, Mt. Vernon, and T. M. Edmiston of Newark.

As stated, Rev. Mr. Harter of Fredericktown, will represent Mr. Gay. The rules of the church give an accused pastor the right to select some one of the Presbytery to represent him in a church trial.

All the testimony will be conducted behind closed doors. It is impossible to ascertain just how many witnesses will be examined by the prosecution, but it is known that Mrs. H. C. Deems will be one of the important witnesses, and it is believed that Mr. Deems, Mr. and Mrs. W. E. Ralls, Miss Mary Behout and others will be examined.

If Mr. Gay is convicted, he may be suspended from the ministry temporarily. He may have his license permanently revoked. If he is convicted, and feels that he may have a better chance in a higher court, the rules of the church give him the right to appeal his case to the Synod. If he loses here, he still has a higher court and the case may be appealed to the Assembly of the church. This is his last resort.

Rev. Mr. Gay will probably make a bitter fight against conviction, although it was the opinion of the Utica people that he would not come back to appear before the court at all.

He will probably claim that he has been persecuted by a few members of the church because of their alleged objection to raising the salary of \$1,500 per year. However, it has been impossible to learn just what his defense will be.

### ROBBERS FOILED.

Chicago, Dec. 4.—A daring attempt by a trio of bank burglars to loot the vaults of the Prairie State bank, was foiled today by the watchman who routed the thieves after a revolver fight. Following a futile raid on the bank, two armed holdup men made a raid on the Western avenue Metropolitan elevated station and were put to flight by shots from the station agent.

### SHOT BY ROBBER.

Kansas City, Mo., Dec. 4.—On unknown robber attempted to toll up Santa Fe train No. 17 at Holiday, Kansas, last night. Charles Ward of Purcell, I. T., who grappled with the man, was shot twice in the leg. The robber escaped but lost his hat.

## WANT STATE CONTROL

Guthrie, Okla., Dec. 2.—President Murray of the constitutional convention appointed a committee to memorialize congress requesting the transfer of the segregated land in the Indian Territory from federal to state control. The convention considered the advisability of buying these lands, but definite action was deferred until the last of the week.

### IMPRESSION IN CUBA.

Havana, Dec. 4.—The impression is created in Cuba by Roosevelt's utterances on the Cuban trouble in his message to Congress today that Washington is determined on a protectorate for the island.

## RAWLINGS AND ALF. MOORE DIE ON THE GALLOWS

BOTH MET DEATH BRAVELY  
AND NEITHER ALTERED  
FORMER STATEMENTS.

### TWO BOYS HANG ON FRIDAY

All the Time the Elder Rawlings Has  
Insisted Upon Being Hanged for  
this Crime.

Valdosta, Ga., Dec. 4.—Rev. J. G. Rawlings and Alf Moore, a negro, were hanged in private in the Lowndes county jail today. Both died bravely, neither changing former statements to any great degree in their death statements. Jesse and Milton are sentenced to be hanged next Friday.

J. G. Rawlings, who was formerly a Methodist minister, was hanged on the charge of planning the murder of W. L. Carter, father of the children, is also an ex-Methodist preacher, and the two men labored side by side at revival meetings in this state for years. Later they settled on adjoining farms and lived as close friends. A son of one and the daughter of the other were sweethearts and were about to be married when a feud sprung between the two families which has led three of the Rawlings family to the gallows.

On the night of the murder the three Rawlings boys, accompanied by Moore went to the Carter homestead for the purpose of exterminating the family, it is claimed. Nervous horses gave warning of their approach. Carrie Carter and her brother Willie, 14 and 16 years old, were killed, while Carter barricaded his home and fought off the besiegers who sought to set it on fire, until daylight drove them away.

Rawlings, his three sons and Moore were charged with the crime. The negro turned state's evidence. The men were convicted and the case has been fought through all the courts. All the time the elder Rawlings has insisted on being executed. He admitted that he had hired Moore to commit the crime. An effort is made to secure a new trial for the two sons, who have been sentenced to death.

## SENATOR BAILEY

Preparing to Answer the Charges  
Made Against Him by Texas  
Attorney General.

Fl. Worth, Texas, Dec. 4.—Senator Bailey arrived here last night from Washington and went to Chinesville today to attend the funeral of Judge Barrett, a friend. He will go to Austin Wednesday to look into the allegations made by the attorney general. He will issue a public statement regarding the serious charges made against him.

## VAGRANT SOLD INTO SERVITUDE FOR SUM OF \$10

Elizabethtown, Ky., Dec. 4.—Dock Aubrey, who was convicted of vagrancy and who was ordered sold into servitude for nine months, according to the law of the state, was disposed of at public auction to J. Johnson, a farmer, for the sum of \$10. Dock's reputation for general shiftness was such that even the most strenuous efforts of the sheriff were not sufficient to bring out many bids, the report having gone forth that his ability to consume food was out of all proportion to his capacity for work.

## MAYOR SCHMITZ

Had No Word of Greeting for Ruff  
When Arraigned in Prison—  
Relations Are Strained.

San Francisco, Dec. 4.—Mayor Schmitz and Abraham Ruef appeared before Superior Judge Dunne for a arraignment on charges of extortion preferred by the grand jury. The courtroom was thronged with spectators. The mayor was accompanied by his attorneys and when he took his seat before the bar there was no greeting between himself and Ruef. Their actions seemed to indicate that the relations between the mayor and Ruef had become strained. Attorneys for the two indicted men asked that the arraignment be postponed for one week. Judge Dunne set next Thursday as the day for the arraignment.

Sparks circus train was wrecked near Troy, S. C., one showman being killed, two injured.

## PRESIDENT SENDS MESSAGE TO CONGRESS

URGES ENACTMENT OF LAW TO  
PROHIBIT CONTRIBUTIONS  
FROM CORPORATIONS.

### CAPITAL AND LABOR DISPUTES

Divorce Legislation, Currency, Cuba,  
Army and Navy, Panama, and  
Other Matters Considered.

Washington, Dec. 4.—President Roosevelt sent his annual message to Congress this noon.

After referring to the prosperous condition of the United States which he declared will only be marred by reckless speculation and disregard of legitimate business methods, the President complimented the work done by Congress at the last session, and touched upon the subject of campaign contributions, urging the enactment of a law prohibiting corporations from contributing to campaign funds. He also urges the passage of the measure conferring upon the government the right of appeal in criminal cases on question of law. Continuing the President says:

I cannot too strongly urge the passage of the bill in question. A failure to pass it will result in seriously hampering the government in its effort to obtain justice, especially against wealthy individuals or corporations who do wrong, and may also prevent the government from obtaining justice for wage-workers who are not themselves able effectively to contest a case where the judgment of an inferior court has been against them. I have specifically in view a recent decision by a district judge leaving railway employees without remedy for violation of a certain so-called labor statute. The importance of enacting into law the particular bill in question is further increased by the fact that the government has now definitely begun a policy of resorting to the criminal law in those trust and interstate commerce cases where such a course offers a reasonable chance of success.

### Proper Use of Injunctions.

In my last message I suggested the enactment of a law in connection with the issuance of injunctions, attention having been sharply drawn to the matter by the demand that the right of applying injunctions in labor cases should be wholly abolished. It is at least doubtful whether a law abolishing altogether the use of injunctions in such cases would stand the test of the courts, in which case, of course, the legislation would be ineffective. Moreover, I believe it would be wrong altogether to prohibit the use of injunctions. It is criminal to permit sympathy for criminals to weaken our hands in upholding the law, and if men seek to destroy life or property by mob violence there should be no impairment of the power of the courts to deal with them in the most summary and effective way possible. But so far as possible the abuse of the power should be provided against by some such law as I advocated last year.

### Against Lynching.

I call your attention and the attention of the nation to the prevalence of crime among us and, above all, to the epidemic of lynching and mob violence that springs up now in one part of our country, now in another. Each section, north, south, east or west, has its own faults. No section can with wisdom spend its time jeering at the faults of another section. It should be busy trying to amend its own shortcomings. To deal with the crime of corruption it is necessary to have an awakened public conscience and to supplement this by whatever legislation will add speed and certainty in the execution of the law. When we deal with lynching even more is necessary. A great many white men are lynched, but the crime is peculiarly frequent in respect to black men. The greatest existing cause of lynching is the perpetration, especially by black men, of the hideous crime of rape, the most abominable in all the category of crimes, even worse than murder.

Lawlessness grows by what it feeds upon, and when mobs begin to lynch for rape they speedily extend the sphere of their operations and lynch for many other kinds of crimes, so that two-thirds of the lynchings are not for rape at all, while a considerable proportion of the individuals lynched are innocent of all crime.

There is but one safe rule in dealing with black men as with white men. It is the same rule that must be applied in dealing with rich men and poor men—that is, to treat each man, whatever his color, his creed or his social position, with even handed justice on his real worth as a man. While people owe it quite as much to themselves as to the colored race to treat well the colored man who shows by his life that he deserves such treatment. There is no question of social equality or negro domination involved.

In my judgment, the crime of rape should always be punished with death, as is the case with murder. Assault

## OFFERS TO RUN POSTAL AFFAIRS AND CUT POSTAGE RATES IN HALF

W. D. BOYCE.

WASHINGTON, Dec. 4.—A remarkable proposal has been made to the Postal Commission by W. D. Boyce, of Chicago, a publisher and man of affairs, who is reputed to be many times a millionaire. It is that the government turn over the postal service of the country to a private corporation, but under strict public control. Mr. Boyce has made the proposition on behalf of himself and his associates, whom he does not name, to take over the postoffice business and run it on business principles.

The proposal includes an agreement to immediately cut postage rates in half. There would be no deficit, it is claimed, because the corporation could not afford to lose money.

Mr. Boyce suggests that the corporation be placed under a commission which will regulate and supervise it.

He proposes to pay the United States a rental for all postoffices and against this he would charge Uncle Sam regular rates for all services performed for him. These he estimates at \$25,000,000 annually.

By applying business methods to postoffice affairs Mr. Boyce says there would be immense economy in transportation.

With intent to commit rape should be made a capital crime, at least in the discretion of the court, and provision should be made by which the punishment may follow immediately upon the heels of the offense.

No more shortsighted policy can be imagined than in the fancied interest of one class to prevent the education of another class. The white man, if he is wise, will decline to allow the negroes in a mass to grow to manhood and womanhood without education.

### "Treachers of Mere Discontent."

In dealing with both labor and capital, with the questions affecting both corporations and trades unions, there is one matter more important to remember than ought else, and that is the infinite harm done by preachers of mere discontent. These are the men who seek to excite a violent class hatred against all men of wealth. They seek to turn wise and proper movements for the better control of corporations and for doing away with the abuses connected with wealth into a campaign of hysterical excitement and falsehood in which the aim is to inflame to madness the brutal passions of mankind. The sinister demagogues and foolish visionaries who are always eager to undertake such a campaign of destruction sometimes seek to associate themselves with those working for a genuine reform in governmental and social methods and sometimes masquerade as such reformers. In reality they are the worst enemies of the cause they profess to advocate, just as the purveyors of sensational slanders in newspaper or magazine are the worst enemies of all men who are engaged in (Continued on Page 2.)

## TERRY MCGOVERN BECOMES CRAZED IN SOUTH BROOKLYN

New York, Dec. 4.—Terry McGovern, former welterweight champion of the United States and whose sanity has been in question several times, became suddenly crazed in South Brooklyn today. McGovern was arrested by a policeman who saw him lurking over a ash barrel and found him screaming at the top of his voice. When taken up McGovern had a big blooded sled in his possession. He was in the city yesterday and visited the city jail where it is rumored he had been kept.

## HITT'S SUCCESSOR

Washington, Dec. 4.—Speaker Cannon announced to the house the appointment of Cousins (Rep.) of Iowa, chairman of the committee on foreign affairs to succeed the late Representative Hitt of Illinois and Lowden (Rep.) of Illinois, as a member of that committee.

will then go to the department of justice; Mr. Strauss will enter the cabinet as secretary of commerce and labor and Mr. Metcalf will become secretary of the navy. Mr. Shaw will retire March 4 and Mr. Cortelyou will take the treasury portfolio and will be succeeded as postmaster general by George Von L. Meyer, present ambassador to St. Petersburg; Mr. Garfield will succeed Secretary Hitchcock as head of the interior department at the same time.

Senator Tillman will go to the court because of the incident connected with the rate bill, and for the further reason that he believes that Messrs. Judson and Harmon were unfairly treated in connection with the Santa Fe rebate case, but he announced that he would not go further than making a few remarks concerning these incidents when the Moody nomination is considered in executive session.

### Isle of Pines.

Washington, Dec. 4.—There will be a new treaty sent to the senate at the present session of congress defining the title of the Isle of Pines, according to plans that have been made by certain Republican members of the senate committee on foreign relations. The present treaty has been pending for nearly three years, with little prospect of ratification. It is planned to redraft the treaty in order to incorporate more definite safeguards for the interests of the Americans who had bought lands in the islands prior to the negotiation of pending treaty.

### Workmen For Ship Subsidy.

Washington, Dec. 4.—Speaker Cannon has received 15 petitions from prominent union labor organizations in this city asking him to use his influence for the passage of the ship subsidy bill. As President Gompers of the American Federation of Labor and other prominent labor leaders have openly opposed the measure, the petitions sent to Mr. Cannon have caused some surprise in that they indicate a division among the labor forces on this important measure.

### Adverse to Mail Clerk.

Washington, Dec. 4.—The case of Reuben L. Martin, a railway mail clerk, for damages on account of injury in an accident on the Pittsburgh & Lake Erie railroad, was decided by the supreme court of the United States adversely to Martin. The case involved the validity of the Pennsylvania law placing mail clerks on the same footing as railroad employees, and the law was sustained. Justice White announced the court's decision.

## ROOSEVELT READY

President Tells Senator Hopkins  
That He Hopes Penrose or Foraker  
Resolution Will Pass.

Washington, Dec. 4.—The administration will not dodge the negro troop issue. President Roosevelt told Senator Hopkins today that he hoped that either Penrose's or Foraker's resolutions on the subject of the discharge of the colored battalion would be adopted without delay. He has all the papers in the case ready and will send them to the Senate promptly. The President feels confident that his course will be upheld by the law makers.

## TO SMOKE OUT STANDARD OIL TRUST

Findlay, Ohio, Dec. 4.—Prosecutor David and Attorney Phelps on behalf of Attorney General Ellis filed a motion in Circuit court today to compel the Buckeye company to produce its books and records in court. It also demands that the oil trust and its subsidiary corporations file a complete list of officers and directors. The motion is expected to smoke the trust out of its lair.

## ATTACKS

Of Counsel in the Summing Up of  
Gillette Case.

Herkimer, N. Y., Dec. 4.—Never perhaps in the history of Herkimer county justice had the closing scenes of a murder trial been characterized by such bitter attacks of counsel as developed in the summing up of the Gillette case. Former Senator A. M. Mills, close personal and political friend of the prosecutor, made the last appeal to the jury to acquit Chester E. Gillette of the murder of Grace Brown at Big Moose lake July 11. He dramatically declared that the five physicians who had sworn that there was a blood clot on Grace Brown's brain had sworn to a falsehood, intimating that the physicians were improperly influenced. District Attorney Ward jumped to his feet and launched into a scathing denunciation of Senator Mills and the method he had taken to sway the jury over to the defense.

## FOR PANAMA CANAL

Colon, Dec. 4.—Two hundred Spanish and Sea Police officers here today reached Colon to take the Panama canal. Heavy rain has fallen for three days.

## BETS ARE MADE ON RESULT OF GILLETTE TRIAL

CELEBRATED CASE GOES TO  
THE JURY AT HERKIMER  
LATE TODAY.

### PRISONER UNDER FULL FIRE

District Attorney Makes Closing  
Speech to Jurors—Herkimer an  
Armed Camp.

Herkimer, N. Y., Dec. 4.—Chester Gillette faced the full fire of the state's case when District Attorney Ward summed up the evidence which he believes will convict the Cortland youth of the murder of Grace Brown. Unnerved and nervous for fear of some harm that may come to him from threatening crowds, which storm the door of the court house, and by weight of evidence against him, Gillette presented a picture of abject wretchedness in court today. The prosecutor will spend the entire day massing the evidence against Gillette in powerful argument of his guilt and it will be nightfall before the jury finds its verdict. Even money is offered that Gillette will not go to the electric chair.

Herkimer is little more than an armed camp today. The local police and numerous deputy sheriffs who were sworn in early in the trial have been re-enforced by detectives and officers from Utica and nearby towns, while the 31st separate company of Herkimer stands ready to be rushed to the court house should there be an outbreak against the prisoner or the jury should they acquit Gillette. There is no disorder in Herkimer. It seems to be that peculiar quiet that precedes a storm or outbreak. The mountaineers and woodsmen who have come down from the Adirondacks move quietly about and mingle with the determined people of the town, who say with uncommon emphasis that there will not be any second trial. No one talks lynching openly, and Sheriff Richards says there is not the slightest danger. Nevertheless District Attorney Ward is keeping the Herkimer militia under orders.

Bets are being made freely today that Gillette will get a verdict of murder in the second degree or a disagreement of the jury. Two to one is offered that Gillette will not be acquitted. Reports are current that two men on the jury are political enemies of Ward and to even up scores will stand out to any length before they will vote to give Gillette the death penalty.

Should Gillette be convicted he must be sentenced within two days after the jury has returned a verdict. Gillette will be taken to Auburn in the event of his conviction, guarded by two deputy sheriffs and if necessary a detachment of soldiers to prevent him from being taken from the train by mobs while en route to the prison. Feeling against Gillette is high not only in Herkimer, but all through central New York.

Prosecutor Ward in his argument today pointed out what he described as the "glaring mis-statements of facts made by Senator Mills."

"He told you the witness Raymond said the girl wore a high black hat," said Ward. "As a fact, Raymond did not give the color of the hat. He further stated that Raymond was not an acquaintance of the defendant but you will recall Gillette on the stand testified that he knew Raymond well and had seen him often. He also mis-stated the testimony of the liverman, Cove, and his hostler. Senator Mills has told you how he would commit the crime of murder. Yes, that intelligence after it had planned to murder would have stopped and said 'I will not pay the price.' It is the bungling blood thirsty, brutal man who reasons not like you and I. Here is a man posing as a paragon of virtue, skulking to the home of his victim at night and ravishing her. He said to himself, 'I have deceived her and I have deceived everyone here. I will take her to the lake and kill her. When her body is found they will think she was drowned in the company of a strange man, and that God in His wrath spoke her.' Then he would come back to Cortland to mingle with the bodies of society."

Prosecutor Ward said the state had proved that a contract to marry had existed between Gillette and the girl.

### TWO ENGINES WRECKED.

Mt. Sterling, N. Y., Dec. 4.—In a head on collision between two Chesapeake & Ohio freight trains here today, two engines were wrecked. Five cars were piled up and one man was killed and three were injured. The work is the result of a mistake in orders.

## PRESIDENT'S MESSAGE

(Continued from Page 1.)

an honest effort to better what is bad in our social and governmental conditions.

Corruption is never so rife as in communities where the demagogue and the agitator bear full sway, because in such communities all moral bands become loosened, and hysteria and sensationalism replace the spirit of sound judgment and fair dealing as between man and man. In sheer revolt against the squalid anarchy thus produced men are sure in the end to turn toward any leader who can restore order, and then their relief at being free from the intolerable burdens of class hatred, violence and demagoguery is such that they cannot for some time be aroused to indignation against misdeeds by men of wealth, so that they permit a new growth of the very abuses which were in part responsible for the original outbreak. The one hope for success for our people lies in a resolute and fearless but sane and cool headed advance along the path marked out last year by this very congress. There must be a stern refusal to be misled into following either that base creature who appeals and panders to the lowest instincts and passions in order to arouse one set of Americans against their fellows or that other creature, equally base, but no baser, who in a spirit of greed or to accumulate or add to an already huge fortune seeks to exploit his fellow Americans with callous disregard to their welfare of soul and body. The man who debauches others in order to obtain a high office stands on an evil equality of corruption with the man who debauches others for financial profit, and when hatred is sown the crop which springs up can only be evil.

The plain people who think—the mechanics, farmers, merchants, workers with head or hand, the men to whom American traditions are dear, who love their country and try to act decently by their neighbors—owe it to themselves to remember that the most damaging blow that can be given popular government is to elect an unworthy and sinister agitator on a platform of violence and hypocrisy.

## Railroad Employees' Hours.

I call your attention to the need of passing the bill limiting the number of hours of employment of railroad employees. The measure is a very moderate one, and I can conceive of no serious objection to it. Indeed, so far as it is in our power, it should be our aim steadily to reduce the number of hours of labor, with as a goal the general introduction of an eight hour day. There are industries in which it is not possible that the hours of labor should be reduced, just as there are communities not far enough advanced for such a movement to be for their good, or, if in the tropics, so situated that there is no analogy between their needs and ours in this matter. On the isthmus of Panama, for instance, the conditions are in every way so different from what they are here that an eight hour day would be absurd, just as it is absurd, so far as the isthmus is concerned, where white labor cannot be employed, to bother as to whether the necessary work is done by alien black men or by alien yellow men. But the wage-workers of the United States are of so high a grade that alike from the merely industrial standpoint and from the civic standpoint it should be our object to do what we can in the direction of securing the general observance of an eight hour day.

Let me again urge that the congress provide for a thorough investigation of the conditions of child labor and of the labor of women in the United States. The horrors incident to the employment of young children in factories or at work anywhere are a blot on our civilization.

In spite of all precautions exercised by employers there are unavoidable accidents and even deaths involved in nearly every line of business connected with the mechanic arts. It is a great social injustice to compel the employee, or, rather, the family of the killed or disabled victim, to bear the entire burden of such an inevitable sacrifice. In other words, society shirks its duty by laying the whole cost on the victim, whereas the injury comes from what may be called the legitimate risks of the trade. Compensation for accidents or deaths due in any line of industry to the actual conditions under which that industry is carried on should be paid by that portion of the community for the benefit of which the industry is carried on—that is, by those who profit by the industry. If the entire trade risk is placed upon the employer, he will promptly and properly add it to the legitimate cost of production and assess it proportionately upon the consumers of his commodity. It is therefore clear to my mind that the law should place this entire "risk of a trade" upon the employer.

## Capital and Labor Disputes.

Records show that during the twenty years from Jan. 1, 1881, to Dec. 31, 1900, there were strikes affecting 117,509 establishments, and 6,105,004 employees were thrown out of employment. During the same period there were 1,005 lockouts, involving nearly 10,000 establishments, throwing out 1,000,000 people out of employment. These strikes and lockouts involved an estimated loss to employees of \$307,000,000 and to employers of \$143,000,000, a total of \$450,000,000. The public suffered directly and indirectly probably as great additional loss.

Many of these strikes and lockouts would not have occurred had the parties to the dispute been required to appear before an unprejudiced body representing the nation and, face to face, state the reasons for their con-

tention. The exercise of a judicial spirit by a disinterested body representing the federal government, such as would be provided by a commission on conciliation and arbitration, would tend to create an atmosphere of friendliness and conciliation between contending parties.

## Control of Corporations.

It cannot too often be repeated that experience has conclusively shown the impossibility of securing by the actions of nearly half a hundred different state legislatures anything but ineffective chaos in the way of dealing with the great corporations which do not operate exclusively within the limits of any one state. In some method, whether by a national law or by other means, we must exercise, and that at an early date, a far more complete control than at present over these great corporations—a control that will, among other things, prevent the evils of excessive overcapitalization and that will compel the disclosure by each big corporation of its stockholders and of its properties and business, whether owned directly or through subsidiary or affiliated corporations. This will tend to put a stop to the securing of inordinate profits by favored individuals at the expense whether of the general public, the stockholders or the wage-workers. Our effort should be not so much to prevent consolidation as such, but so to supervise and control it as to see that it results in no harm to the people.

Combination of capital, like combination of labor, is a necessary element of our present industrial system. It is not possible completely to prevent it, and if it were possible such complete prevention would do damage to the body politic. What we need is not vainly to try to prevent all combination, but to secure such rigorous and adequate control and supervision of the combinations as to prevent their injuring the public or existing in such form as inevitably to threaten injury, for the mere fact that a combination has secured practically complete control of a necessary of life would under any circumstances show that such combination was to be presumed to be adverse to the public interest. It is unfortunate that our present laws should forbid all combinations instead of sharply discriminating between those combinations which do good and those combinations which do evil. Rebates, for instance, are as often due to the pressure of big shippers (as was shown in the investigation of the Standard Oil company and as has been shown since by the investigation of the tobacco and sugar trusts) as to the initiative of big railroads. Often railroads would like to combine for the purpose of preventing a big shipper from maintaining improper advantages at the expense of small shippers and of the general public. Such a combination, instead of being forbidden by law, should be favored. In other words, it should be permitted to railroads to make agreements, provided these agreements were sanctioned by the interstate commerce commission and were published. With these two conditions complied with it is impossible to see what harm such a combination could do to the public at large.

## Inheritance and Income Tax.

The national government has long derived its chief revenue from a tariff on imports and from an internal or excise tax. In addition to these, there is every reason why, when next our system of taxation is revised, the national government should impose a graduated inheritance tax and, if possible, a graduated income tax.

I am well aware that such a subject as this needs long and careful study in order that the people may become familiar with what is proposed to be done, may clearly see the necessity of proceeding with wisdom and self restraint and may make up their minds just how far they are willing to go in the matter, while only trained legislators can work out the project in necessary detail. But I feel that in the near future our national legislators should enact a law providing for a graduated inheritance tax by which a steadily increasing rate of duty should be put upon all moneys or other valuables coming by gift, bequest or devise to any individual or corporation. There can be no question of the ethical propriety of the government thus determining the conditions upon which any gift or inheritance should be received.

As the law now stands it is undoubtedly difficult to devise a national income tax which shall be constitutional. But whether it is absolutely impossible is another question, and if possible it is most certainly desirable. The first purely income tax law was passed by the congress in 1861, but the most important law dealing with the subject was that of 1894. This the court held to be unconstitutional.

The question is undoubtedly very intricate, delicate and troublesome. The decision of the court was only reached by one majority. It is the law of the land and of course is accepted as such and loyally obeyed by all good citizens. Nevertheless the hesitation evidently felt by the court as a whole in coming to a conclusion, when considered together with previous decisions on the subject, may perhaps indicate the possibility of devising a constitutional income tax law which shall substantially accomplish the results aimed at. The difficulty of amending the constitution is so great that only real necessity can justify a resort thereto. Every effort should be made in dealing with this subject, as with the subject of the proper control by the national government over the use of corporate wealth in interstate business, to devise legislation which without such action shall attain the desired end, but if this fails there will ultimately be no alternative to a constitutional amendment.

## Industrial Training.

Our industrial development depends largely upon technical education, in-

cluding in this term all industrial education from that which fits a man to be a good mechanic, a good carpenter or blacksmith to that which fits a man to do the greatest engineering feat. The skilled mechanic, the skilled workman, can best become such by technical industrial education. The far reaching usefulness of institutes of technology and schools of mines or of engineering is now universally acknowledged, and no less far reaching is the effect of a good building or mechanical trades school, a textile or watchmaking or engraving school.

In every possible way we should help the wage-worker who toils with his hands and who must (we hope in a constantly increasing measure) also toil with his brain. Under the constitution the national legislature can do but little of direct importance for his welfare save where he is engaged in work which permits it to act under the interstate commerce clause of the constitution, and this is one reason why I so earnestly hope that both the legislative and judicial branches of the government will construe this clause of the constitution in the broadest possible manner.

## The Farmer.

The only other persons whose welfare is as vital to the welfare of the whole country as is the welfare of the wage-workers are the tillers of the soil, the farmers.

Several factors must co-operate in the improvement of the farmer's condition. He must have the chance to be educated in the widest possible sense, in the sense which keeps ever in view the intimate relationship between the theory of education and the facts of life.

Organization has become necessary in the business world, and it has accomplished much for good in the world of labor. It is no less necessary for farmers. Such a movement as the grange movement is good in itself and is capable of a well nigh infinite further extension for good so long as it is kept to its own legitimate business. The benefits to be derived by the association of farmers for mutual advantage are partly economic and partly sociological.

## Irrigation and Forest Preservation.

Much is now being done for the states of the Rocky mountains and great plains through the development of the national policy of irrigation and forest preservation. No government policy for the betterment of our internal conditions has been more fruitful of good than this.

## Divorce Legislation.

I am well aware of how difficult it is to pass a constitutional amendment. Nevertheless, in my judgment, the whole question of marriage and divorce should be relegated to the authority of the national congress. The change would be good from every standpoint. In particular it would be good because it would confer on the congress the power at once to deal radically and efficiently with polygamy, and this should be done whether or not marriage and divorce are dealt with. It is neither safe nor proper to leave the question of polygamy to be dealt with by the several states.

## Merchant Marine.

Let me once again call the attention of the congress to two subjects concerning which I have frequently before communicated with them. One is the question of developing American shipping. I trust that a law embodying in substance the views or a major part of the views expressed in the report on this subject laid before the house at its last session will be passed. It seems to me that the proposed measure is as nearly unobjectionable as any can be.

## The Currency.

I especially call your attention to the second subject, the condition of our currency laws. The national bank act has ably served a great purpose in aiding the enormous business development of the country, and within ten years there has been an increase in circulation per capita from \$21.41 to \$33.08. For several years evidence has been accumulating that additional legislation is needed. The recurrence of each crop season emphasizes the defects of the present laws. There must soon be a revision of them, because to leave them as they are means to incur liability of business disaster. Since your body adjourned there has been a fluctuation in the interest on call money from 2 per cent to 30 per cent, and the fluctuation was even greater during the preceding six months. The secretary of the treasury had to stop in and by wise action put a stop to the most violent period of oscillation.

I do not press any special plan. Various plans have recently been proposed by expert committees of bankers. Among the plans which are possibly feasible and which certainly should receive your consideration is that repeatedly brought to your attention by the present secretary of the treasury, the essential features of which have been approved by many prominent bankers and business men. According to this plan, national banks should be permitted to issue a specified proportion of their capital in notes of a given kind, the issue to be taxed at so high a rate as to drive the notes back when not wanted in legitimate trade. This plan would not permit the issue of currency to give banks additional profits, but to meet the emergency present by times of stringency.

I do not say that this is the right system. I only advance it to emphasize my belief that there is need for the adoption of some system which shall be automatic and open to all sound banks so as to avoid all possibility of discrimination and favoritism.

The law should be amended so as specifically to provide that the funds derived from customs duties may be created by the secretary of the treas-

ury as he treats funds obtained under the internal revenue laws. There should be a considerable increase in bills of small denominations. Permission should be given banks, if necessary under settled restrictions, to retire their circulation to a larger amount than three millions a month.

## Our Outlying Possessions.

I most earnestly hope that the bill to provide a lower tariff for or else absolute free trade in Philippine products will become a law. No harm will come to any American industry, and, while there will be some small but real material benefit to the Filipinos, the main benefit will come by the showing made as to our purpose to do all in our power for their welfare.

## Puerto Rican Affairs.

American citizenship should be conferred on the citizens of Porto Rico. The harbor of San Juan, in Porto Rico, should be dredged and improved. The expenses of the federal court of Porto Rico should be met from the federal treasury.

## Hawaii.

The needs of Hawaii are peculiar. Every aid should be given the islands, and our efforts should be unceasing to develop them along the lines of a community of small freeholders, not of great planters with coolly tilled estates.

## Alaska.

Alaska's needs have been partially met, but there must be a complete reorganization of the governmental system, as I have before indicated to you. I ask your especial attention to this. Our fellow citizens who dwell on the shores of Puget sound with characteristic energy are arranging to hold in Seattle the Alaska-Yukon-Pacific exposition. This exposition in its purposes and scope should appeal not only to the people of the Pacific slope, but to the people of the United States at large.

## Rights of Aliens.

Not only must we treat all nations fairly, but we must treat with justice and good will all immigrants who come here under the law. Whether they are Catholic or Protestant, Jew or gentile, whether they come from England or Germany, Russia, Japan or Italy, matters nothing. All we have a right to question is the man's conduct. If he is honest and upright in his dealings with his neighbor and with the state, then he is entitled to respect and good treatment. Especially do we need to remember our duty to the stranger within our gates. It is the sure mark of a low civilization, a low morality, to abuse or discriminate against or in any way humiliate such stranger who has come here lawfully and who is conducting himself properly. To remember this is incumbent on every American citizen, and it is of course peculiarly incumbent on every government official, whether of the nation or of the several states.

I am prompted to say this by the attitude of hostility here and there assumed toward the Japanese in this country. This hostility is sporadic and is limited to a very few places. Nevertheless it is most creditable to us as a people, and it may be fraught with the gravest consequences to the nation.

I ask fair treatment for the Japanese as I would ask fair treatment for Germans or Englishmen, Frenchmen, Russians or Italians. I ask it as due to humanity and civilization. I ask it as due to ourselves, because we must act uprightly toward all men. I recommend to the congress that an act be passed specifically providing for the naturalization of Japanese who come here intending to become American citizens. One of the great embarrassments attending the performance of our international obligations is the fact that the statutes of the United States are entirely inadequate. They fail to give to the national government sufficiently ample power, through United States courts and by the use of the army and navy, to protect aliens in the rights secured to them under solemn treaties which are the law of the land. I therefore earnestly recommend that the criminal and civil statutes of the United States be so amended and added to as to enable the president, acting for the United States government, which is responsible in our international relations, to enforce the rights of aliens under treaties.

## The Cuban Matter.

Last August an insurrection broke out in Cuba which it speedily grew evident that the existing Cuban government was powerless to quell. Thanks to the preparedness of our navy, I was able immediately to send enough ships to Cuba to prevent the situation from becoming hopeless, and I furthermore dispatched to Cuba the secretary of war and the assistant secretary of state in order that they might grapple with the situation on the ground.

In accordance with the so called Platt amendment, which was embodied in the constitution of Cuba, I thereupon proclaimed a provisional government for the island, the secretary of war acting as provisional governor until he could be replaced by Mr. Magoon, the late minister to Panama and governor of the canal zone on the isthmus. Troops were sent to support them and to relieve the navy, the expedition being handled with most satisfactory speed and efficiency. Peace has come in the island, and the harvesting of the sugar cane crop, the great crop of the island, is about to proceed. When the election has been held and the new government inaugurated in peaceful and orderly fashion the provisional government will come to an end.

The United States wishes nothing of Cuba except that it shall prosper morally and materially and wishes nothing of the Cubans save that they shall be able to preserve order among themselves and therefore to preserve their

independence. If the elections become a farce and if the insurrectionary habit becomes confirmed on the island it is absolutely out of the question that the island should continue independent, and the United States, which has assumed the sponsorship before the civilized world for Cuba's career as a nation, would again have to intervene and to see that the government was managed in such orderly fashion as to secure the safety of life and property.

## The Rio Conference.

The second international conference of American republics, held in Mexico in the years 1901-02, provided for the holding of the third conference within five years and committed the fixing of the time and place and the arrangements for the conference to the governing board of the bureau of American republics, composed of the representatives of all the American nations in Washington. That board discharged the duty imposed upon it with marked fidelity and painstaking care, and upon the courteous invitation of the United States of Brazil the conference was held at Rio de Janeiro, continuing from the 23d of July to the 29th of August last. Many subjects of common interest to all the American nations were discussed by the conference, and the conclusions reached, embodied in a series of resolutions and proposed conventions, will be laid before you upon the coming of the final report of the American delegates.

## Panama Trip.

I have just returned from a trip to Panama and shall report to you at length later on the whole subject of the Panama canal.

## The Algebras Convention.

The Algebras convention, which was signed by the United States as well as by most of the powers of Europe, supersedes the previous convention of 1880, which was also signed both by the United States and a majority of the European powers. This treaty confers upon us equal commercial rights with all European countries and does not entail a single obligation of any kind upon us, and I earnestly hope it may be speedily ratified.

## Sealing.

The destruction of the Pribilof Island fur seals by pelagic sealing still continues. The herd, which, according to the survey made in 1874 by direction of the congress, numbered 4,700,000, and which, according to the survey of both American and Canadian commissioners in 1901, amounted to about 180,000. This result has been brought about by Canadian and some other sealing vessels killing the female seals while in the water during their annual pilgrimage to and from the south or in search of food.

The process of destruction has been accelerated during recent years by the appearance of a number of Japanese vessels engaged in pelagic sealing.

Suitable representations regarding the incident have been made to the government of Japan, and we are assured that all practicable measures will be taken by that country to prevent any recurrence of the outrage.

We have not relaxed our efforts to secure an agreement with Great Britain for adequate protection of the seal herd, and negotiations with Japan for the same purpose are in progress.

The laws for the protection of the seals within the jurisdiction of the United States need revision and amendment.

## Second Hague Conference.

In my last message I advised you that the emperor of Russia had taken the initiative in bringing about a second peace conference at The Hague. Under the guidance of Russia the arrangement of the preliminaries for such a conference has been progressing during the past year. Progress has necessarily been slow, owing to the great number of countries to be consulted upon every question that has arisen. It is a matter of satisfaction that all of the American republics have now, for the first time, been invited to join in the proposed conference.

## Army and Navy.

It must ever be kept in mind that war is not merely justifiable, but imperative upon honorable men, upon an honorable nation, where peace can only be obtained by the sacrifice of conscientious conviction or of national welfare.

The United States navy is the surest guarantor of peace which this country possesses. I do not ask that we continue to increase our navy. I ask merely that it be maintained at its present strength, and this can be done only if we replace the obsolete and outworn ships by new and good ones, the equals of any afloat in any navy. To stop building ships for one year means that for that year the navy goes back instead of forward.

In both the army and the navy there is urgent need that everything possible should be done to maintain the highest standard for the personnel alike as regards the officers and the enlisted men. I do not believe that in any service there is a finer body of enlisted men and of junior officers than we have in both the army and the navy, including the marine corps.

West Point and Annapolis already turn out excellent officers. We do not need to have these schools made more scholastic. On the contrary, we should never lose sight of the fact that the aim of each school is to turn out a man who shall be above everything else a fighting man.

There should soon be an increase in the number of men for our coast defenses. These men should be of the right type and properly trained, and there should therefore be an increase of pay for certain skilled grades, especially in the coast artillery. Money should be appropriated to permit troops to be massed in body and exercised in maneuvers, particularly in marching.

# LEWIS H. FERRIS KILLED BY CAR

## MIDNIGHT TROLLEY HIT HIM A SHORT DISTANCE EAST OF NEWARK.

Victim of Accident an Old Soldier and a Brother-in-Law of Dr. M. W. Sutor.

A frightful accident occurred on the Indiana, Columbus & Eastern interurban railway about midnight on Monday, in which another human being was ushered into eternity without a moment's notice.

The last car leaving Zanesville at 11 o'clock and due in Newark at 12:15 o'clock, in charge of Conductor Northup and Motorman A. B. Wilson was coming towards the city at a good rate of speed and everything was going well until the car approached Dayton stop, one and a half miles east of Newark. Here a highway crosses the railroad tracks, and as the car neared the crossing the motorman noticed a man lying alongside the track, with his head resting on the ties. The whistle of the car screeched wildly, and the motorman threw on the brakes, but was unable to stop the car, and as it approached to within 15 feet of the man, he started to raise himself up when the pilot struck him fairly, mashing his head and breaking his left arm in several places.

The motorman stopped the car, the body was picked up and brought to Newark, where it was taken to McGonagle's undertaking establishment to be prepared for interment.

Upon searching his clothes a pension paper and letters disclosed the fact that the dead man was Lewis H. Ferris of Rural Route No. 1, who is a bachelor and lives with his brother-in-law, Dr. M. W. Sutor, at his home at Rocky Fork.

Coroner Marriot was called Tuesday morning and viewed the body, and will hold an inquest as soon as possible.

Coroner Marriot held an inquest relative to the man's death at 10 o'clock Tuesday morning in the office of Superintendent Moore of the interurban railway. Quite a number of witnesses were examined and the coroner found that Ferris' death was caused by being struck by an Indiana, Columbus and Eastern interurban car, while asleep on the track and under the influence of liquor.

# Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this innocuous and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

# MRS. LINGAFELTER TO BE RELEASED

## SHE HAS NOT BEEN WATCHED VERY CLOSELY IN COSHOCTON COUNTY JAIL.

(Bulletin.)

Coshocton, O., Dec. 4.—At 3 p. m. the clerk of the courts is arranging with Judge Campbell for bond for Mrs. Lingafelter, an order from the Circuit court suspending sentence having just been received. Mrs. Lingafelter will be released from jail this evening or in the morning.

Coshocton, O., Dec. 4.—Mrs. Mary J. Lingafelter still resides in the county jail here, but it is expected that she will be released some time today. Her attorneys have been arranging her bond, but Clerk McBane will have to confer with Judge Campbell over the telephone or receive a written order before she can be released from custody. Mrs. Lingafelter is not as closely watched as most prisoners for there is very little danger of her attempting to escape, and she is not kept locked in a room, for if she should try to escape and be recaptured it would be very detrimental to her chances of escaping imprisonment in the penitentiary.

Attorney P. B. Smythe was in New Lexington Monday and obtained from Judge Donahue a suspension of sentence. The papers were mailed from New Lexington last night. Judge Campbell has already fixed the bond at \$2000, so Mrs. Lingafelter's release is a matter of only a short time. Her appeal to the Circuit court will be heard in all probability at Coshocton next spring.

# DEATHS AND FUNERALS

## DOUBLE FUNERAL.

The double funeral of Mr. and Mrs. Henry Radebaugh, who were killed on the B. & O. track in North Newark Saturday night while on their way to a religious service, took place at the home on Postal avenue Tuesday afternoon at 2 o'clock, the Rev. Jennie Lynn of Columbus, conducting the service.

The caskets, containing the bodies of the two unfortunates, were placed side by side in one room of the residence. After the service at the house was concluded the caskets were placed in two funeral cars and taken to Cedar Hill cemetery.

## MISS LENA SMITH.

Miss Lena Smith, residing on the Newark road, south of Mt. Vernon, died Sunday afternoon from lung trouble. The deceased was 51 years of age. Interment in the Hopewell cemetery Wednesday morning.

## MRS. J. C. FISHER.

Mrs. S. A. Fisher, wife of J. C. Fisher, so long a newspaper editor and publisher of Coshocton, died at the family home in that city, Monday evening, after an illness extending over a half dozen years, the last 12 months in a totally helpless condition, and a great sufferer, with a nervous ailment developing from paralysis. Her age was 66 years. While born in Zanesville, most of her life was passed in Coshocton. Besides the bereaved husband her demise is mourned by two daughters, two brothers and one sister, with many other relatives and friends.

Mrs. Fisher was a woman of strong mentality, wide information, good literary tastes and attainments, and who looked well to the ways of her household. She was appreciated in social and literary circles, but her greatest charm was in the home life, beyond her home city.

Her circle of friends extended far and though sorely tried with a long and painful affliction, there remained to the end the gentle, uncomplaining spirit testifying to faith in and submission to the Divine will.

Funeral services will be held on Thursday afternoon, burial in Oak Ridge cemetery.

# SHOT HIMSELF WHILE HUNTING

## WILLIAM FRIZZELL OF BLACK HAND INJURED WHILE IN THE WOODS.

Doctor Postle Found It Necessary to Amputate One Toe and Part of Lad's Foot.

A hunting accident occurred Monday afternoon three miles southeast of Black Hand, when William Frizzell, aged 16, a son of A. J. Frizzell, a prominent farmer of Black Hand, shot himself in the foot, making it necessary to amputate one of the toes and a portion of the foot.

Young Frizzell was hunting in the vicinity of the scene of the accident when the accident occurred. It is not known just how it occurred, as Frizzell was alone and is unable to explain.

It is evident that the muzzle of the gun was resting on the young man's foot or at least not more than an inch distant when the weapon was discharged. The third toe was carried away by the charge of shot and the bone was shattered well up into the instep.

A family residing near Black Hand young man's cries for help and he was taken to his grandmother's home, not far distant. Dr. Postle was called and gave the injured man surgical attention. His injury is not serious.

## Inquest Not Needed.

It seems that there has been misunderstanding on several occasions regarding the holding of coroner's inquests, and in this connection it was stated that there was some difference of opinions as to whether an inquest was necessary in the case of Mr. and Mrs. Radebaugh's deaths.

In cases where death is known to be accidental no allowance is made by the commissioners for such investigation. In the case of the Radebaugh deaths the coroner prepared to conduct an inquest, but the commissioners refused to grant an allowance. Their refusal was based on advice of Prosecutor Fitzgibbon who stated that an inquest is only necessary, according to the law, when there is a suspicion of the victim having met death by foul means.

"The Great Issues."

(New York World.)

The Fifty-ninth Congress will convene for its final session at noon Monday and adjourn sine die at midnight March 3. In these three months little important legislation, aside from the appropriation bills, is likely to be enacted. The short session of an expiring Congress is rarely eventful.

Public interest in the approaching session is concerned chiefly with the recommendations which the President will make in his message. While this "information of the state of the Union" and recommendation of "such measures as he shall judge necessary and expedient" is to be made to the Fifty-ninth Congress, it will be largely for the instruction and guidance of the Sixtieth Congress where the next battle for the further restriction and control of organized wealth is likely to be fought.

Fifty-five years ago, when Charles Sumner was elected to the United States Senate, Thomas H. Benton said to him: "You come upon the stage too late, sir; the great issues are all settled." Benton lived long enough to learn that none of the great issues had been settled. Indeed, the great issues are never settled. They return from generation to generation, in new forms and under new disguises, and no final victory is ever won. They were never less settled than they are today.

Thomas W. Palmer, former Minister to Spain, former United States Senator and former President of the Columbian Exposition, told a reporter for the Detroit Journal the other day that "it looks to me though we are gradually working toward modified socialism, not of the kind that will take away anybody's rights or property, but which will insure an enjoyment of them in peace and equality." Senator Palmer's "modified socialism" is vague and indefinite, but it probably represents in a way the aims and aspirations of a very large element of the American people.

They are tired of an industrial oligarchy where a little handful of men control thousands of millions of dollars in property which for the most part they do not themselves own, and hold the power of life and death over thousands of millions of property in which they have not a penny's direct interest. Between this oligarchy on one side and socialism on the other side there is a widespread belief in a golden mean which will approach nearer and nearer to an industrial democracy while confining the Government to its true function of protecting life and property.

There is no formula for it. The trail has never been blazed and the work is largely experimental. It is doubtful if the President himself could define precisely the thing that he expects to achieve, or could predict with any degree of confidence the results that would follow from the measures which he will recommend. Yet he would be false to his great trust if he closed his eyes to this increasing industrial discontent, and did not strive to the best of his ability to find a solution for the problem that can never be fully solved.

"Man never is, but always to be blest," yet there is forever the reasonable compromise which enables society to endure and man to make the best of it, and civilization would soon destroy itself if the great majority of men were not impelled by instinct and

intuition to believe that somehow or in some way they were ultimately going to be blest if they but fought the good fight and kept the faith.

## AWFUL AGONY OF PILES

Positively Relieved By The Pyramid Pile Cure.

### A TRIAL PACKAGE MAILED FREE

There is no reason—surely no good reason—why any man or woman should continue to suffer with piles when a reputable company of druggists have placed in every high-grade pharmacy a positive and unfailing cure for this dread disease at a price within the reach of the poorest. They have done more. They offer to relieve the sufferer temporarily and start him well on the way to recovery, by giving to any piles patient who sends his name and address a free trial package of the wonderful Pyramid Pile Cure in a plain sealed wrapper. There are enough of the curative elements in this trial package to greatly reduce the swelling of the affected part, to heal

Where Most Piles Sufferers End. Act Before Too Late.

much of the soreness and ulceration. After the sample is gone your druggist will supply you with a box of the Pyramids for 50 cents.

Read Mrs. Bond's letter, which tells how she suffered and was relieved, it not positively cured, after using one 50 cent box.

"I have tried your pile cure and find them all you recommend them. I am very thankful to you for ever putting them within my reach, for I have had one box and I have not used all of them yet, and I feel like a new woman today, and I tell everybody about them. When I started them I could not walk across the floor, but now I can do my work all right. My work was a burden to me before I started them, but I can tell you that I can work much better now. You can rely on me. I will tell everybody about Pyramid Pile Cure. Yours sincerely, Mrs. J. Bond, Toronto, Canada, 333 Pears Avenue."

There is positively no risk or danger with the Pyramid Pile Cure, for there is nothing but curatives in the preparation. They are suppositories which placed in the affected part, act as a soothing ointment working upon the infected and ulcerous tissues, giving new life and stimulating a stronger circulation of the blood.

By the use of the Pyramid Pile Cure the patient is cured at home without losing a day's work, no matter what his occupation. The cure may be accomplished in absolute privacy. We use no names for advertising purposes without the voluntary consent of the patient.

The Pyramid Pile Cure is quick, permanent and painless. Do not delay, but send your name and address today, and we will furnish you at once with the free trial package. Pyramid Drug Co., 73 Pyramid Bldg., Marshall, Mich. The 50 cent size packages are for sale at all druggists.

## JOS. A. MILLER BREWERS' AGENT DIED THIS MORNING

Cincinnati, Dec. 4.—Joseph A. Miller, 45, secretary of the Ohio Brewers Association and secretary of the Cincinnati Brewers' Board of Trade, died at 6 o'clock this morning at the German Deaconess hospital of heart failure. Mr. Miller died with his hand clasping that of his wife, who had been summoned to the hospital at midnight. Miller was one of the best known figures in the forces of the liquor interests of Ohio. He was at the head of all legislative movements in the interests of the brewers and was chief lobbyist against the \$1,000 Alken tax and local option laws. Miller was born in Kentucky.

## GEO. DAVIS TRIES TO KILL HIMSELF

UTICA BLACKSMITH SLASHED HIS THROAT WITH BUTCHER KNIFE TUESDAY.

Mayor Bricker Had Ordered Him Taken to Workhouse—Injury Inflicted Not Serious.

Utica, O., Dec. 4.—George Davis, the blacksmith, aged 50, tried to kill himself with a butcher knife this morning, but he succeeded in making only a slight wound which bled freely.

Davis has been before Mayor Mayor Bricker at least a dozen times during the past few months and his fines have aggregated \$70. A week ago the mayor told the man that he would send him to the Zanesville work house the next time he appeared before him.

On Sunday, it is alleged, he attacked his wife while under the influence of liquor and was jailed for the offense. Last night the mayor issued an order to Marshal Vance to take him to the work house today. Before he was to leave town with the officer, Davis requested the privilege of leaving the prison to go home for a few minutes, and as he has been a trusty, the request was granted. While at the house he picked up a butcher knife and slashed his throat but before he succeeded in severing his jugular vein the jailer rushed in and saved his life. The injury the man inflicted upon himself was not sufficient to postpone the trip to Zanesville, so he was taken to the work house today.

### THE PLAIN TRUTH.

What More Can Newark People Ask?

When well known residents and highly respected people of Newark make such statements as the following, it must carry conviction to every reader:

John Lippincott, proprietor of a livery stable at 127 Eleventh street, Newark, Ohio, says: "I heartily endorse Doan's Kidney Pills, and in fact, I have told hundreds of the people that this remedy helped me out of the cemetery. I had a severe case of kidney trouble. I suffered from rheumatism for a long while and had a pain across the loins that almost paralyzed me. The twinges felt like knife thrusts. When I did not suffer these sharp, shooting pains there was a constant, dull aching in the small of the back. At such times I could not find an easy position no matter whether I sat, stood or lay down. My back tired easily, and when I tried to shift about the sharp pains would catch me again. I truly believe that if it had not been for Doan's Kidney Pills, I would not be alive today. I got a box and the effect of the treatment was simply wonderful. It drove the pain from my back and sides and there has not been a trace of any of the symptoms I have described for the past eight years. It was just after I had used Doan's Kidney Pills in 1896 that I made a statement in the papers telling about my case, and I am happy to find that after eight years I can stoop and lift and am feeling as supple as I ever was. I will be glad to tell all I know about Doan's Kidney Pills to anybody who cares to inquire."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

## DISCRIMINATION

In Freight Rates at Hearing Began at Pueblo, Colorado, by E. E. Clark.

Pueblo, Colo., Dec. 4.—Discriminations in freight rates were disclosed here at the hearing begun by E. E. Clark of the interstate commerce commission, which is investigating coal and oil land and rate conditions. The session was devoted to the examination of Denver & Rio Grande local officials. The principal evidence developed was the fact that the Colorado Fuel and Iron company pays a rate of \$2 a ton for coal from Crested Butte to Pueblo, while the small local dealers pay \$4 per ton. It was shown also that the Colorado Fuel company was given a rate on coke from Walsenburg of 75 cents a ton, or about half the amount charged the general public.

## WHY IS CORTELYOU TO BE HONORED?

ASKS JUDGE PARKER IN DISCUSSING ROOSEVELT'S PROPOSED PLAN.

To Pay Back to Policy Holders the Money Contributed for Political Purposes by Companies.

Albany, N. Y., Dec. 4.—Judge Allen B. Parker, the Democratic candidate for President against Roosevelt in 1904, discussing the Washington story that President Roosevelt, before he retires from office, intends to have refunded to the policy holders of the "Big Three" insurance companies \$148,000 contributed by these concerns to the Republican National Committee in 1904, said:

"Does President Roosevelt or his friends mean to have the public understand that the \$148,000 that the Republican National Committee presided over by his confidential man, Cortelyou, received from the three New York companies was all the money received from corporations or does he or they mean that policy holders' money is different from stockholders' money; that it was legitimate for the big business corporations to take money out of their treasuries to elect the Republican ticket, but illegitimate for insurance corporations to do the same thing, or does the story, given out as I am advised by authority, mean that the President wishes now to revive and reinforce the impression, one quite general, that he thought he was right, when in 1904, he captured the sympathy and support of some portion of the public by denouncing as false, the charge confidential information, that the great corporations of the country were contributing to the Republican National Committee for the purpose of assuring the election of the Republican candidate?"

"And is it thought by his friends that no more instances will be provided now that the election of a Republican House of Representatives has been accomplished? Certainly the President will not take shelter behind that probability. If he does not now know that millions were contributed he can learn it by asking his postmaster general, the then chairman of the Republican National committee. He can not refuse to tell the President the truth, if he has not already told him. And this suggests to my mind a query that I have long desired to have answered: If Chairman Cortelyou, in his interview with the President before the latter's famous denial, deceived the President about the corporation contributions, who has he honored him with a seat in his cabinet? Why does he confide in him and trust him?"

## APPLICATION DENIED

New York, Dec. 4.—Justice Dowling in the supreme court denied the application of Stephen Farrelly and others for an injunction restraining the New York Life insurance company from conducting a campaign in the manner alleged by the plaintiff, in the interests of the "administration ticket," for directors of the company. Mr. Farrelly is a member of the international policy-holders' committee, on whose ticket he is a candidate for director, and associated with him in the action brought were other policy-holders. In his application Farrelly alleged that the New York Life was using the money of the policy-holders and the time of its paid employees to circulate copies of the administration ticket.

## HORSE IS FOUND

Animal Hitched to Buggy of Upper Sandusky Made West of Newark. Where is the Owner?

Early Monday morning, a black horse, attached to a phaeton was seen hitched to a post near the home of Mr. E. L. Roberts, about four miles west of Newark on the Hebron road. It was supposed that the owner had temporarily left the horse expecting to return for it, but the day passed and the animal was not called for.

Mr. Roberts became suspicious during the day and took the horse into his barn where he cared for it. He noted that the horse had evidently been driven hard but there was nothing about the rig to indicate its ownership. The buggy is of the Central Ohio make, Upper Sandusky, Ohio. The owner may have the rig by calling upon E. L. Roberts or addressing him on R. F. D. No. 3, Newark, Ohio, and paying the charges.

The place where the horse was hitched is near one of the stopping points on the Newark & Columbus trolley line. This gives rise to the suspicion that the rig may have been stolen by parties who were endeavoring to make their escape.

## ORPHIUM THEATER.

The vaudeville bill at the Orphium last evening was thoroughly enjoyed by every one present. John Foster, the German comedian, is one of the cleverest German comedians that has appeared in Newark for some time. The balance of the acts are all up to the standard and will no doubt attract large crowds this week as it is one of the best vaudeville entertainments ever seen in Newark.

## CHIMES OF NORMANDY.

The male chorus of "Chimes of Normandy" will meet this evening in the A. O. U. W. hall on the south side, at 7 o'clock. Chorus women will meet at 7:30. The costumes and orchestrations for the production have been ordered and are on their way. From the present outlook the opera will be one of the most successful home talent affairs, from an artistic standpoint, that has ever been given in Newark. Monday night's rehearsal of the cast was a surprise to Director Flora and the members of the cast.

## ABOUT CIGARS.

Collins & Son Tell What Newark Smokers Most Enjoy.

"You would be surprised," said Mr. Collins, of Collins & Son's drug store, "to see the different selections of cigars made in our store in the course of a day, and hear each man's reason for his preference." Continuing he said that the majority of Newark smokers now prefer a Wadsworth Bros. Chico.

It is a finely flavored, clear Havana filled cigar made from tobacco thoroughly ripened under the rays of the southern sun. The tobacco used in the Chicos is fully matured and seasoned and burns finely and perfectly, with a fine flavor and fragrance. Mr. Collins recommends a cigar with a dark wrapper, as this shows that the tobacco has been fully matured, but whichever color, light or dark, is selected in the Wadsworth Bros. Chico, he says you will get a good perfect, satisfying cigar, equal to the ordinary ten and fifteen cent values.

## TWO NEW ORGANIZATIONS IN CONGREGATIONAL CHURCH

The First Congregational church has recently organized two clubs, one for young men and one for boys.

The Triangle club is for young men over the age of fifteen. Its object is to train the muscle, mind and morals. Its aim, "A Perfect Manhood." Meetings are held every two weeks on Friday evening. The officers are: President, Clyde White; vice president, Benjamin Evans; secretary, George Jordan; treasurer, Fred Allison.

The True Blue club is for boys under the age of fifteen. Its motto is "True to Jesus, True to Self, True to All." It meets on Sunday afternoon at 2:30 for instruction under the direction of the pastor. A social meeting will be held monthly. The officers are: Captain, Everett Jones; mate, Harry Yankie; Clerk, Lindsey Pettit; nurse, Mark Yankie; stewards, Melvin Jones and Mark Yankie.

These two organizations, together with the Quex club for young ladies, which was organized some months ago, and the Christian Endeavor society will enable the church to care for its rapidly growing circle of young people.

## OHIO CENTRAL TRACTION LINE WANTS FRANCHISE IN SOUTH END

Application Made at Council Meeting for 25 Year Franchise on Third, Pataskala and German Streets-- Canal Ordinance Passed---Good Grist of Business Disposed of.

Monday night's Council meeting saw a number of freak ordinances introduced and yet there was considerable business disposed of which was of a sane nature.

Every councilman except Mr. McNeally was present, but there was not the usual number of spectators watching the proceedings.

Councilman King introduced an ordinance to prevent people from receiving circulars from distributors on the street and to make it a misdemeanor to receive them and then throw them on the streets or sidewalks. This was a clause in his ordinance to regulate the use of advertising in the city.

Mr. King also took occasion to make a few remarks about the proposed improvements on the canal at the street intersections. It has been many moons since so much oratory has been wasted on the "desert air" of the council chamber, in fact not since the new councilmen took their seats a year ago. Mr. King opposed the ordinance, which authorizes the Board of Service to contract with the State Board of Public Works to fill in the canal at the street intersections. Mr. King says this would increase the supply of stagnant water and thus make the already unsanitary conditions along the canal banks worse.

Councilman King told his colleagues that he was now circulating a petition to present to the Board of Public Works asking them to repair or remove the old aqueduct in West Newark. Even after President W. C. Christian of the B. P. S. explained to Mr. King that the state had no money to spend on repairing the canal, the latter voted "no" on the ordinance when it came up for vote.

Mayor McCleery reported to the council that he had collected \$181.50 in fines and licenses during the month of November. This, by the way, is the smallest month's business that the mayor's office has had. Of this amount \$99 in fines and costs were collected for the county in state cases. Fines and costs in prosecuting cases under the ordinance brought the city \$48, while \$14.50 was collected for licenses.

A communication was received from the Ohio Central Railway which is the company proposing to operate an interurban line between Lancaster and Newark, asking for a franchise in the south end of the city. The petition asked that the franchise give the company a right to build and operate their railroad on Third street, from the square south to Pataskala street, and west to German street. The petition was signed by W. P. Cosgrave of Zanesville, president, and E. C. Irvine of Columbus, secretary. It was received and placed on file. A local representative of the company addressed the council and told the members that this road would be built as soon as possible and asked that the measures be rushed. He said that the road was not backed by more promoters, but that they meant business.

The Board of Service submitted a report to the council giving a long list of the improvements ordered by the council during the last year or more. The report was received and filed.

The city engineer, through the B. P. S. reported the estimated cost of the raising of the sidewalks on Indiana street. At this point, the sidewalks are from six to eight inches too low and the Indiana street school children are compelled to wade through water on rainy days.

Mr. Beadle introduced an ordinance to offer the city money for deposit in the bank bidding the highest.

## Do Away With Food Adulteration

The People Have a Right to Know What They Are Eating.

Too great attention cannot be given to the food we eat. The health of our families depends on it. Are we to submit to the atrocities of the food adulterators? No. We must have laws to protect us and those laws must be enforced.

It is of interest to note that there is at least one article of food about which we can know everything. This is Malta-Vita, popularly called "The Perfect Food," the pure, all-grain product, in which every element of food necessary to the proper nutrition of the human body is found.

In the manufacture of Malta-Vita the whole of the wheat is thoroughly cleaned, cooked in the purity of absolute cleanliness and then mixed with the finest malt extract, made from specially selected barley. The cooking and steaming of the wheat gelatinizes the starch, and the malt extract, a powerful digestive agent, converts this starch into maltose, or malt sugar, in which Malta-Vita is very rich. Maltose is of great food value, sweetens the wheat sufficiently to make unnecessary the use of any foreign sweetening agent and the weakest stomach digests and assimilates it without effort. Rolled into wafer-like flakes and baked under intense heat, Malta-Vita comes from the oven crisp and brown, positively the most delicious food in the world. All grocers, 10 cents.

face of interest. This measure was lead for the first time.

An ordinance by King on the first reading prohibits the hauling of dirt, gravel, manure etc., through the city and over the paved streets, unless contained in a tight wagon bed.

Mr. King introduced an ordinance determining to proceed with the improvement of High street from Fourth to the alley running between High and Pearl streets by paving and curbing. It was read for the first time.

Another ordinance was introduced by Mr. King to regulate the use of advertising in the city. This ordinance which was on its first reading makes it a misdemeanor to paint signs on sidewalks, trees, fences, walls, poles without the permission of the owners of abutting property. Under the new ordinance it is also a misdemeanor to throw more than one circular or handbill in a yard or to throw any such circulars on the street after receiving them from the distributor. The penalty for violation is a fine of from \$1 to \$500.

An ordinance by Caine was introduced to regulate the commission of special or private policemen or officers not on the regular force. The ordinance was read for the first time.

An ordinance by Mr. Beadle was introduced through determining to proceed with the construction of a sewer on Andover street from Cedar to Penney avenue. The measure was passed under a suspension of rules.

The Morris street sewer ordinance also by Mr. Beadle, was passed on a suspension of rules. An ordinance by Beadle to construct the sewer on Dewey avenue from Main to the Pennsylvania tracks was read for the first time. It was referred to the street committee.

The canal ordinance providing for the filling of the canal at the street intersection was up for third reading. Before it was passed, Mr. King talked about the proposed filling and objected to it. He wanted the ordinance tabled until he could get his petition before the Board of Public Works. Even when it was explained to him that his proposition could not be considered by the state board, he voted "no" when the ordinance was put to vote. The measure passed without his vote.

Councilman Moser introduced a resolution asking the board of service to get estimates on the cost of raising the sidewalks on the south side of the Pennsylvania tracks on Pine street. The resolution was passed. A resolution by Mr. Hughes asked that the application of the Ohio Central Railway company for a 25 year franchise be received and placed on file. The resolution was passed. A resolution to take down a tree in front of the Anna M. Hall's residence, 164 Granville street, was introduced and passed.

Several other minor resolutions were passed and the council adjourned for just one more meeting this year.

We want you to go with us to visit the home of Santa Claus, at the Plymouth Congregational church, Thursday, December 6 at 7:30 p. m. Illustrated by magnificent stereoscopic views. Admission 10 cents. 343

## SCHOOL BOARD

Held Short Meeting Monday Night—Children Give Clothing and Food to the Poor.

The board of education met Monday night but as there was very little business up for transaction only a short session was held. Members Beggs, Koller, Christian, Fulton and Kockley were present.

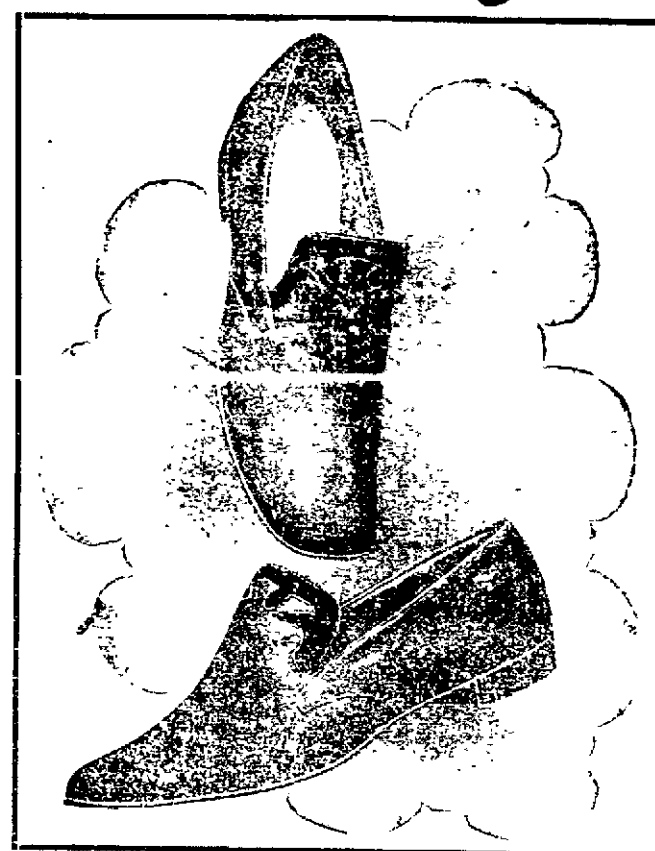

The financial report of the clerk, for the month of November was read, totals being as follows:

Tuition fund	\$1,287.55
Contingent fund	486.55
Building fund	\$ 152.97
Sinking fund	3,550.60
	\$5,477.67

Bills to the extent of \$750.50 were allowed.

Treasurer Jones gave his report, showing that a great many donations from the school children had been delivered to the poor of the city on Thanksgiving day. The suggestions of Superintendent Simkins were carried out to the letter by the pupils and teachers on the subject of Thanksgiving donations. About 300 bundles of clothing and many loads of potatoes and canned fruit were among the articles donated.

## TRUCK PUSHER

At a Depot Gets a Half-Million Dollar Estate by the Death of a Brother in Indiana.

Omaha, Neb., Dec. 4.—David Sharpe, the elderly Omaha man who has just fallen heir to one half a million dollar estate by the death of a brother, Jas. Sharpe at Lafayette, Ind., is a laboring man. He pushes a big truck at the freight depot of the Chicago, St. Paul, Minneapolis and Omaha road in this city.

Sharpe has always been a hardworking man and by living frugally he has made shift to support himself and his wife.

He went to Indiana last week to attend his brother's funeral and has not yet returned home. His wife was asked what plans she and her husband had for the future. She said they would continue to live in their little cottage home here.

## IN POLICE COURT

Defense in "Woman in Black" Case Allege That the Bad Checks Were Not Forgeries.

Three plain drunks were before Mayor McCleery this morning and were fined \$5 and costs each and sent to the county jail.

Frank Spring, who was tried on Monday afternoon before Mayor McCleery on a charge of selling liquor on Sunday, November 4, was found guilty and fined \$25 and costs. His attorney, Mr. James, notified the court that the case would be appealed to the Common Pleas court. In the case against the man in which he was charged with selling to minors, the defendant waived examination, and was bound over under a \$200 bond.

Mrs. Bessie Myers, the "Woman in Black," who passed several bad checks on November 3, was tried before Mayor McCleery Tuesday morning. Her attorneys, Messrs. Russell and Horner, after hearing the evidence, asked leave to file a motion and asked for time to prepare the document. This was granted by the mayor.

The defense is fighting the case on the ground that the woman is Anna Cahoe and therefore the checks were not forgeries. They were taking the chance that the state could not prove by witnesses that the woman had represented herself to be other than Anna Cahoe.

The state will introduce several

witnesses this afternoon to prove that the woman lived at the home of Mrs. Effinger as Mrs. Bessie Myers, and that she received mail addressed in that name. The motion will be argued Wednesday morning.

## Stop Drinking!

Orrine Will Destroy all Desire for Whiskey or Beer.

A Michigan druggist, H. G. Coleman, has made a thorough study of the various cures for the liquor habit, and gives this as a result of his investigations: "Before taking the agency of Orrine, I went to a considerable trouble to learn about it and become confident that it was a thoroughly honest preparation and put out by a reliable firm."

Write for free book on the cure of alcoholism to the Orrine Co., Washington, D. C. Mailed sealed. Orrine costs but \$1 per box.

Orrine is sold and guaranteed by Hall's Drug Store.

## JAPANESE IN HAWAII

Newcomers Are Picked Men With Military Experience.

## THOUSANDS MORE ON WAY

Movement Among Greek Letter Fraternities to Exclude the Brown Men. British View of California Affair. Bill Affecting the Treaty Rights of Foreigners.

Honolulu, Dec. 4.—There are at least 100,000 Japanese in Japan ready to come to Hawaii, according to F. Y. Idzuma, representing Saler & Frazier, the amalgamation of the American and British shipping firms in Yokohama, whose steamship, the Shibuta, is now in port. The laboring classes throughout the interior portions of Japan are beginning to hear of the opportunities they are told exist here, and are showing a desire to come.

Indications are now cropping out that the Japanese immigrants who have been arriving here for some time past, as well as those who have been granted passports and who will arrive in the future, are picked men with military experience.

## British View.

London, Dec. 4.—The Daily Mail publishes an editorial on the difficulties of the United States with Japan over the school question in San Francisco. The paper is of the opinion that in spite of the gravity of the situation, owing to the fact that President Roosevelt has not power to coerce California, it is foolish to suggest that Japan would enforce her rights at the cannon's mouth. Japan certainly has no intention of picking a quarrel with the United States, the paper says. "Yet sooner or later," the Daily Mail continues, "the west will have to reckon with the fact of Asiatic claims to perfect equality with the westerner."

## Treaty Rights of Foreigners.

Washington, Dec. 4.—Representative Sherry of Kentucky introduced a bill in the house which, if enacted into law, will give the federal courts jurisdiction over cases where treaty rights of foreigners are affected. The bill is a modification of section 5508, United States revised statutes, which relates to conspiracy against "any citizen." By the substitution of "any person," the protection of this statute is extended to foreigners. The penalty for violation of the statute is fixed at a fine not to exceed \$5,000 and imprisonment for not more than 10 years.

## May Oust Japanese.

Cincinnati, O., Dec. 4.—From investigation of rumors which have been prevalent here for some time regarding the attitude of many Greek letter fraternities as regards the Japanese question, it has been learned that the Phi Delta Theta fraternity will shortly declare a ban against the representatives of Japan in American universities and will at the same time oust all who are now fraternity members from the rolls. Thereafter no more will be added to the membership.

## STATE NEWS

### Buckeye Railroad Shot.

Pittsburg, Dec. 4.—James Burns, a railroad man of Youngstown, O., was shot by a companion, Bernard Nelson of this city, and is in the hospital, where it is said he can not recover. Nelson is locked up pending the result of Burns' injuries. On the way to the police station Nelson said he was sorry he had not emptied his revolver into Burns. At the hospital Burns said they had been using cocaine and that Nelson shot him while he was in bed asleep.

### Building Collapsed.

Dayton, O., Dec. 4.—Five men employed by the John Rousser company to raze a three-story brick building on Main street were buried beneath the debris occasioned by the collapse of the structure. Fred Myers, a carpenter, was killed instantly, and Daniel Eldridge, Elmer O'Hagan, Joseph Reibout and John Stock were seriously injured.

### Four Persons Overcome.

Lorain, O., Dec. 4.—Four persons were rendered unconscious, three of whom are still in a dangerous condition, as a result of partial asphyxiation by gas in the Second Congregational church during services. The gas escaped from two natural gas stoves used to heat the auditorium.

### Fainted; Slowly Roasted.

Bellaire, O., Dec. 4.—Robert Neal, a cook, at a local restaurant, fell over on his stove and was cooked to death. Neil was about his usual work when seized with a fainting spell, and fell unconscious on the gas stove. There was no one about at the time and the body was slowly roasted.

### Stabs Negro Minister.

Columbus, O., Dec. 4.—Because of a quarrel as to the payment for a stove and a board bill, Henry Brennaugh stabbed Rev. George W. Washington, in the abdomen. The preacher is confined in a hospital, and his assailant is behind prison bars. Both are colored.

### Oysters Cause Typhoid.

Cincinnati, O., Dec. 4.—Oysters are blamed for a slight typhoid fever epidemic in this city. Examination of the city water has proven its purity, and the health authorities have now united on the bivalves as being at the seat of the trouble.

### Dress Caught Fire.

Hamilton, O., Dec. 4.—Mrs. David Bevin died at the hospital from the effects of burns she received when she attempted to stamp out with her foot the flame from a piece of paper which she had used in lighting a lamp. Her dress took fire.

### Fire at Columbus.

Columbus, O., Dec. 4.—Fire in a five-story structure in East Long street damaged the stocks of the Sackett Mine Supply company and Ohio Traveler company to the extent of \$30,000; fully insured.

### Died of Injuries.

Alliance, O., Dec. 4.—Milton Windle, 60, civil war veteran, died from injuries received in stopping a runaway horse. He was agent for the Pennsylvania company 20 years and postmaster at Garfield 15 years.

### Deed of a Patient.

Steubenville, O., Dec. 4.—While suffering with a high fever Mrs. Stanley Barry, 22, arose from bed and went to an adjoining room, where she procured a razor and cut her throat. She died soon afterward.

### Lived Near Zanesville.

Chicago, Dec. 4.—Lawrence I. Sutton, a wealthy farmer living near Zanesville, O., died of heart disease in the Chicago & Northwestern railroad depot here.

## YOUR FILTERS ON THEIR ACTION DEPENDS YOUR LIFE.

Each day there is as much poison filtered from your blood as you could lay on your thumb nail. Your kidneys are the filters. The poison is uric acid.

When your filters—your kidneys—get out of order not only is your blood filled up with uric acid but these sharp, sand-like grains of uric acid go cutting and scratching through the delicate tubes leading into your kidneys. That is kidney trouble.

Clogging the kidneys with uric acid results in Bright's disease. The blood becomes poisoned and Diabetes or Heart Trouble, or any blood disease may make its appearance. Plainly the only cure is to clean the poison out of the filters—dissolve the uric acid out of the kidneys and blood.

## LIFE PLANT EXPELS URIC ACID.

First of all LIFE PLANT is a solvent of uric acid. It dissolves the uric acid out of the kidneys, drives it out of the blood and cleans up the whole system. Diabetes, Kidney Trouble, Bright's Disease and all other uric acid diseases are thus certainly cured by getting rid of the cause—uric acid.

LIFE PLANT is not a patent medicine, and is perfectly harmless. It cleans out the blood, cleans up the whole inside of the body, keeps it clean, and perfect health must be the result.

If you suffer from Kidney Trouble, Diabetes or any uric acid disease, you may have free medical advice and a free copy of a valuable new book on "Good Health." Write today—now—to

## ALL POLICIES ARE CANCELED

Covering Buildings Owned by So-Called Tobacco Trust.

## INSURANCE MEN'S ACTION

Excitement at Princeton, Kentucky. Heightened by the Inquest Inaugurated by the State Fire Marshal. Chances of Securing Convictions Appear Slight.

Princeton, Ky., Dec. 4.—All insurance policies covering buildings owned or controlled by the tobacco trust, so-called, in western Kentucky, were canceled as a result of the burning of two steamers by a mob which entered Princeton last Friday night. The policies were canceled by telegraph from Louisville, most of them being in two companies. State authorities are here investigating the incendiary fire.

The excitement caused by the mob's action is still intense, interest being heightened by the inquest begun by State Fire Marshal Ayres. Several witnesses were examined, among them being prominent citizens. All had encountered members of the mob, but they testified, with one exception, that they failed to recognize any of the raiders. The exception was the case of William Winters, a section man employed by the Illinois Central railroad, and who is already under arrest, charged with participation in the raid.

The fact that one witness who had previously declared he recognized members of the mob testified to the contrary is taken as an indication that the chances of securing convictions are slight.

## AS MAIL MATTER

People Will Travel Cheaply by the Fastest Trains, Predicts Secretary Cowles.

Cleveland, O., Dec. 4.—People soon will be able to travel as first class mail matter, according to the predictions of James L. Cowles, Secretary and Treasurer of the Postal Progress League, who is here in the interest of postal reform.

"In the future," said Mr. Cowles, "men and women will travel by post. Give Uncle Sam's office department a dollar and you will have yourself sent from Cleveland to any part of the country in the fastest trains."

"It will not be necessary to do yourself up in a paper wrapper, nor will it be necessary to carry a self-addressed stamped envelope for a safe return."

This is one of the advanced ideas that Cowles and his associates expect to have enacted into law some time in the future. At present a bill now pending before Congress, which will consolidate the third and fourth class of mail matter at the third class rate of one cent for two ounces eight cents per pound. Cowles predicts great things will be accomplished through postal reform.

## JOHN M. PENNEY TO LEAVE CEMETERY

A report was in circulation Tuesday afternoon that John M. Penney of Cedar Hill cemetery, would be let out after January 1. Mr. Penney stated that a change in the office was contemplated but denied that he was to sever his connection with the office.

Mr. Taylor of the board of service admitted that a change was contemplated. He stated that all the employees of the cemetery would be granted an increase in wages of 10 per cent and that the board found it necessary to cut down the expenses in the office in order to make up for this increase. James O'Neil will be retained as superintendent at his former salary.

Denial was made by H. D. Miller, United States consular general at Yokohama, of reports emanating from San Francisco that he predicted a war between the United States and Japan.

Mrs. Charles Rhoads was probably fatally hurt and about \$100,000 loss caused by fire, which destroyed Nate Block's five story clothing store at St. Joseph, Mo.

No advertising expenditure, however small or however large, can be made profitable unless it builds up a demand for the goods advertised.

That means that people who are induced through the advertising to buy the cigars must continue to buy them indefinitely in order to bring profit to the manufacturer.

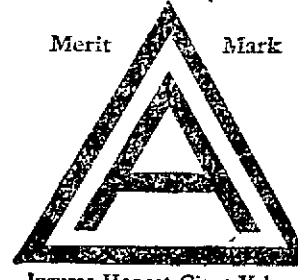

The matter of greatest importance to us then, is to make our cigars so plainly better than those made by any other manufacturer, that we may win increasing public patronage and increase our profits accordingly.

## BLACK HAND

Marks Minnesota's Governor for Assassination—Plot Disclosed in a Letter.

St. Paul, Minn., Dec. 4.—A letter signed by 13 Italians whose names the authorities refuse to divulge, was received by Mayor Robert A. Smith, announcing that the Black Hand Society, whose American headquarters are in New York, had planned to assassinate Governor Johnston, of Minnesota and two European rulers named. The letter says the writers, who are members of the band, came from Calabria, Italy, after numerous lawless acts there, to Utica, N. Y.; that some members of the band were once convicted in the Reggio Calabria, a court in Italy, and have since used "Black Hand" methods to get money out of Italians in this country. According to the letter they are now working on Italians in St. Paul threatening death unless money is forthcoming. The writer asks Mayor Smith to communicate with the New York police and the Reggio Calabria to verify these statements. The mayor referred the letter to Chief of Police O'Connor and the Italian consul in Chicago.

It is proposed to provide a guard for the governor, but he will not consent to such a thing unless his friends find the situation dangerous enough to override his wishes in the matter.

## REED FIRED AT THE JUDGE

ONLY COURT'S AGILITY SAVED  
HIM FROM DEATH AT HANDS  
OF FRENZIED MAN.

Judge Sheppard Had Just Decided a  
Case Giving Reed's Children  
in Custody of Wife.

Poplar Bluff, Mo., Dec. 4.—Circuit Judge J. C. Sheppard had a narrow escape from injury and possibly death yesterday afternoon, when G. B. Reed, a desperado, fired a revolver from his pocket and fired a shot that entered his desk in the Circuit court room. The shooting followed a decision by the court giving Reed's wife, Mrs. Rosa Reed, possession of their five children.

The case had been before court since about 10 o'clock, and a few minutes before court opened in the afternoon Reed and D. W. Hill, attorney for Mrs. Reed, engaged in a fight. The former made a motion to draw his gun when, but Hill grabbed him in the witness stand until he cooled off somewhat. When the case ended and Judge Sheppard denied him possession of his children, Reed reached into his inside coat pocket and drew a big 41-caliber revolver.

Attorney Brown, who had charge of Reed's case, thought he intended shooting Hill and jumped over to where he was standing and caught his arm. But instead of firing at Hill the infuriated man, who was only a few feet away, fired at Judge Sheppard. Judge Sheppard jumped from his stand and ran when he saw Reed's intentions, and the bullet struck his desk only a few inches away. Before he could fire again several attorneys and spectators in the court room grabbed Reed and disarmed him and Sheriff James Hogg turned him over to Chief of Police Calvin and James Cook, who locked him up in the county jail.

Reed's wife secured a divorce from him some months ago on the grounds of cruelty, and since that time he has made several attempts to get possession of the children. He is also said to have threatened to shoot his wife's attorney and Judge Sheppard unless the children were turned over to him.

## REUNION

Of Lawson Emerson and His Wife,  
Who Sues for Alimony  
Predicted.

Columbus, Dec. 4.—That the alimony suit brought against Lawson E. Emerson, clerk of the Supreme court, by his wife, Laura Emerson, a few weeks ago, never will come to trial is freely predicted here, and partly substantiated by the defendant. He arrived from Wheeling last night, where he spent Sunday with his two boys, and had a conference with Mrs. Emerson.

Emerson said his conversation with Mrs. Emerson was on the action she instituted, but he did not care to discuss whether it would ever go to court. If he had his way about it, it would not. Mrs. Emerson was told by him, he says, to come home and bring the boys with her, as the house at 25 South Garfield street has not been closed. This she refused to do, for the reason that her action in court caused too much talk, and she feared she never could return. However, Emerson will give up his lease the first of the year, if his wife does not return, he says.

Such friendly relations have sprung up between Mr. and Mrs. Emerson in the last few days that their friends believe an amicable adjustment of their differences will be effected soon.

## EXHIBIT OF WATER COLOR PAINTINGS.

A delightful exhibit of water color painting is that which was opened Tuesday morning in the dental parlors of Dr. Cochran, on North Park Place. The exhibit comprises 112 views in Japan and various parts of United States and is the work of Mrs. Alice Baker of New York and Miss Hanna Yoshina of Tokio, Japan. There is a keen individuality shown in the work of both artists. It is highly artistic, as it naturally would be, bearing as it does, the distinct impression of the Japanese school. The misty delicacy of the subjects serves to bring before the art lover the true artistic value of the paintings which is placed at from \$2 up. The most valued one exhibited here is held at \$20.

Both Mrs. Baker and Miss Yoshina are pupils of Fukawa Jine Baske, a Japanese artist of long established reputation who is now visiting this country in a study of American subjects and style, and who is at present in Columbus.

Mrs. Baker who is an aunt of Mr. C. L. Sturgeon of this city, will remain here with the exhibit for some time, possibly until December 11.

## BOLDEN SENTENCED

Zanesville Man Goes to Prison for  
Life for Murder of Eugene  
Bleakney.

Zanesville, Dec. 4.—Frank Bolden, who was found guilty of murder in the second degree in Common Pleas court 10 days ago, was brought before Judge Frazier late Monday afternoon and given a life sentence in the penitentiary. The crime for which Bolden will spend the rest of his life behind the prison bars was the shooting of Eugene Bleakney in the latter's home.

Mrs. Mary Bleakney, the wife of the murdered man, who was indicted by the last grand jury for complicity with Bolden in the murder of her husband, is still confined in jail and will probably be tried during the present term of court.

## MR. ASHBROOK WILL GO WITH MR. LANNING

Columbus, Dec. 4.—Wm. A. Ashbrook stopped in Columbus Monday on his way to St. Louis to attend a committee meeting of the National Editorial association after which he will go to Washington to watch congress work for a few days.

It was suggested that he might get a gallery card from Judge M. L. Smyser, the present Republican congressman from the Seventh district, whom he defeated.

"No, I don't think I shall. I know some Democrats and believe I would rather appeal to them. Congressman Smyser seems to be greatly disappointed. He did not extend his congratulations over my election," said the Democratic congressman with a smile.

Jay F. Lanning of Norwalk, Fourteenth district, will go to Washington with Mr. Ashbrook. They are friends of years standing and will get the hang of things together.

## CITY MINISTERS AND THE MAYOR

SUNDAY SALOON QUESTION IS  
UNDER DISCUSSION AT JOINT  
MEETING.

Subject Came Up in Considering Mat-  
ters Relating to Juvenile Court.  
Meeting Tuesday.

At a meeting of the ministers held in the Y. M. C. A. building Monday, at which all of the pastors of the city, Mayor S. H. McCleery, City Trust Officer D. J. Jones, Superintendent J. D. Sinks of the schools, and Probation Officer M. R. Scott of the juvenile court, were present, a discussion of the needs of the children of the city turned into a heated discussion of the Sunday saloon question.

A number of the ministers present expressed their views on the subject of Sunday closing and gave suggestions to Mayor McCleery on the subject, which is to meet further consideration at another special meeting to be held at 420 this, Tuesday, afternoon, between the pastors and the mayor.

The first part of the meeting was devoted to the general discussion of the children of the juvenile court and many suggestions, highly valuable and wholly possible, were heard. Every person present made remarks upon the subject.

Truant Officer Jones arose and in his remarks stated that most of the trouble with, and charges against children, coming to him were brought about, directly and indirectly, by drunken parents. This opened the way to the temperance question and the Rev. L. C. Sparks of the First M. E. church, arose and gave, in substance, the views of the ministers on the subject of Sunday closing. He advised the closing of the saloons all day Sunday.

Mayor McCleery was called upon for a reply, which he made amid a hot fire of questions and propositions from the ministers. The meeting finally closed with the suggestion that another meeting be held Tuesday to consider the subject further. The mayor proposed to the ministers that if they would take up the cause of the children in a special educational and practical manner in their churches, that he would see to it that the saloons would not be a question with them.

The ministers are preparing a resolution on the subject which will be presented to Mayor McCleery at the coming meeting and the outcome is being watched with considerable interest from both sides.
